Forecast for Saturday 10 Jul 2021

Weather: Cloudy for the majority of Saturday with a few sunny spells breaking through at times. An isolated shower possible through the morning, but becoming more scattered during the afternoon when the odd one may also be heavy. The shower risk then decreases again into the evening and night

Chance of cloud free mountain/hill tops above 800m: 60% through the day.

Visibility: Although most of the cloud will remain above summit level, variable amounts will drop lower to 500-600m through the day, bringing moderate visibility to higher slopes. The visibility will then drop further in any showers through the day.

Meteorologist's View

Although showers will be scattered through the day, they will still make slopes and paths wet. Thus, care should be taken and appropriate footwear should be worn.

Forecast for Sunday 11 Jul 2021

Weather: Low cloud covering the park through the first half of the morning, but predominantly dry with just the odd shower possible through the morning. The low cloud will generally lift through the second half of the morning, but it will remain cloudy overhead during the afternoon and evening. More scattered showers developing during the afternoon, some of which may be heavy and persisting into the evening.

Maximum wind: Winds on the summits southerly 15mph, gusting 25 mph.

Chance of cloud free mountain/hill tops above 800m: 30% through the first half of the morning, increasing to 60% from then on.

Visibility: Low cloud with bases 400-500m covering the park through the morning, bringing poor visibility to summits and higher slopes. This cloud generally lifting to above the summits toward midday, but with scattered amounts remaining at lower levels at intervals through the day. Visibility also lowering in the showers developing through the afternoon and evening.

Temperature: **Valleys:** Plus 12 Celsius, rising to plus 18 Celsius.
At 800m: Plus 9 Celsius
Freezing level: Above the summits
